No - no Max, thank you !

An inspirational graduating message from a Dinos star

It has been a Dinos tradition during Coach Dan Vanhooren's time as Head Coach for his graduating seniors to take an opportunity to express their appreciation for the experiences during their careers at UC. These remembrances come from young men who made a choice to become a Dino; they worked hard on the court, in the training rooms, and on their studies.

DINOS
BASKETBALL

As an alumnus of UC, a former player from many decades past, and a fan and supporter of this 1st-class program, I am continually impressed with the character and quality of our student-athletes. I give credit to Coach Vanhooren and his assistants for finding and choosing these exceptional people, then working with them to build teams strong not only on the court, but in the community with volunteer time, and with diligent work in the classrooms.

The attached message from 5th year grad, Max Eisele, comes from a man who embodies the spirit of this Dinos program. Max, you've made us proud with your leadership, your basketball efforts, your commitment to academic excellence, and your expressed joy in being a Dino ! Thank you !

(Max's message comes through Dinos athletics, and is one of a series from graduating UC athletes in 2021)

[Thank you, Dinos Men's Basketball - By Max Eisele](#)
